Ing. Agr. Enrique Andres Antia Behrens
Intendente de Maldonado
Uruguay

Dear Sir,

Re: Safe City- Maldonado
ref: yours dated 16/12/15

Thank you for your letter dated December 16th, 2015 and to the other documents attached to it.

We are privileged to be chosen by you as your counterpart for the performance of the "Safe City- Maldonado Program", as a Government to Government activity, under the Memorandum of Understanding between the Ministry of Interior of Uruguay and the Ministry of Defence of the State of Israel.

Therefore, as per your request, we have instructed Elbit Systems Ltd. (ELSEC) to arrive immediately to Maldonado for performing a professional survey of your needs in order to be able to propose to you a comprehensive solution.

As soon as the Company is ready with the survey conclusions, we shall check and approve it and submit it to you for your comments. The Detailed Proposal to be submitted shall include the Technical, Commercial and Financial solution.

Upon your approval we will propose to you the legal infrastructure for the performance of the "Safe City- Maldonado Program". Our initial intention is to propose a Government to Government Frame Agreement between the city of Maldonado and the Israeli Ministry of Defence and a separate Technical Document to be signed directly between you and the Company, everything under the above mentioned MOU.

Thank you again for choosing us for this challenging Program.

Sincerely Yours,

Brig. Gen. (ret.)  Mishel Ben Baruch
Director
